An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 24, line 2, the words "radially outwardly facing" have been changed to – abluminal --.

In claim 25, line 2, the words "radially inwardly facing" have been changed to – luminal --.

Claims 31-38 have been cancelled as being drawn to an embodiment that was nonelected without traverse.

In claim 60, line 2, the words "radially outwardly facing" have been changed to – abluminal --.

In claim 61, line 2, the words "radially inwardly facing" have been changed to – luminal --.

In claim 71, line 2, the words "radially outwardly facing" have been changed to – abluminal --.

In claim 72, line 2, the words "radially inwardly facing" have been changed to – luminal --.

Claims 24, 25, 60, 61, 71, and 72 have been amended to clarify that the surfaces referred to were the luminal and abluminal surfaces recited in the independent claims.

The following is an examiner's statement of reasons for allowance: The claims are allowable in that none of the art shows a housing for the sensor having a streamlined exterior configuration. As noted by applicant during a telephone interview of 5/26/2004, streamlined is defined in the specification on page 31, paragraph 124. Using the definition given in that paragraph, none of the art teaches using a sensor with such a configuration. Since the limitation is in all of the independent claims, all of the claims are now allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (703) 308-3251. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (703) 308-3130. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
